

To Whom it May Concern,

I urge you to please reject the National Association of Broadcasters petition 04-160. XM radio provides a service to all of its listeners and is available 24-7. It is wonderful to be able to listen to weather and Traffic Information that may help me decided how to plan my day and travels. No other stations offer these types of stations, and this service is provided to paying subscribers of XM. We have a right to these services and is why most of us have subscribed to this service. XM radio is not hurting anyone by offering these channels to its listeners so what is the big deal?? It is my choice to listen to xm as it is also the choice of the thousands of other people. We are paying for a service and no one should have the right to control or hinder the services we pay for. I don't have to listen to droves of commercials on XM and it is well worth the money i have payed and will continue to pay. If this information taken from us not only will it be limiting XM

s First Amendment Rights it will it be limiting ours as well. Again, PLEASE do not let the NAB try to control what XM offers to its loyal listeners.
